

Complete & Sustainable Refrigeration Solutions

FRESH MEAT SERVE-OVER COUNTER

Arc Corner type

ASCR-A (Remote)	Unit	094	125	187	250	285	375	
Width ** excl.end wall	mm	937	1250	1875	2500	2850	3750	
Depth	mm	1150	1150	1150	1150	1150	1150	
Height	mm	915	915	915	915	915	915	
Display Area	m ²	0.78	1.04	1.56	2.08	2.37	3.11	
Energy label* Temperature class M1 / Storage temp.-3/+2 °C								
Application		Dairy products	Cheese	Meat	Minced meat	Cold cuts	Delicatessen	Hot meals
		Prepacked cheese	Prepacked meat	Prepacked minced meat	Prepacked cold cuts	Prepacked delicatessen	Prepacked fish	
Standard features		1. Cabinet only,without compressor; 2. Fan motor : EBM; 3. Temperature controller : Jingchuang; 4. LED lighting : red lighting (standard); 5. Night cover plate (standard),can change to transparent air curtain(Optional)			6. Single set with casters, combination without casters; 7. Double-layer hollow glass side panel; 8. Single side panel + 80mm; 9. Danfoss Expansive valve 10. Stainless steel plate Work top table			

** Standard width:937mm / 1250mm / 1875mm / 2500mm / 2850mm / 3750mm,can be combined with each other
* Label might change depending on configuration

TYPE CODE

A - SC - R/P - N - A

Name of product line: Serve-Over counter
Refrigeration system: Remote&Plug in
Cabinet width(mm): N
A series

Refrigerant: R134a / R404A / R290
Ambient condition: 26°C / 65% RH
Power supply: 220V / 380V - 50Hz / 60Hz
Operating temperature: -3 to +5°C
Cooling system: Fan cooling

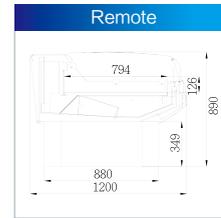

Arc Corner type

FRESH MEAT SERVE-OVER COUNTER

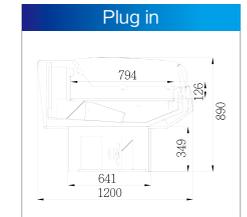

Remote type

TYPE CODE

A - SC - R/P - N - B

Name of product line: Serve-Over counter
 Refrigeration system: Remote&Plug in
 Cabinet width(mm): N
 B series

Refrigerant: R134a / R404A / R290
 Ambient condition: 26°C / 65% RH
 Power supply: 220V / 380V - 50Hz / 60Hz
 Operating temperature: -3 to +5°C
 Cooling system: Fan cooling

Plug in type

ASCR-B (Remote)	Unit	122	144	192	244	288								
Width ** excl.end wall	mm	1220	1440	1920	2440	2880								
Depth	mm	1200	1200	1200	1200	1200								
Height	mm	890	890	890	890	890								
Display Area	m ²	1.02	1.20	1.6	2.0	2.3								
Energy label* Temperature class M1 / Storage temp. -3/+2 °C														
Application		Dairy products	Cheese	Meat	Minced meat	Cold cuts	Delicatessen	Hot meals	Prepacked cheese	Prepacked meat	Prepacked minced meat	Prepacked cold cuts	Prepacked delicatessen	Prepacked fish
Standard features		1. Cabinet only,without compressor; 2. Fan motor : EBM; 3. Temperature controller : Jingchuang; 4. LED lighting : red lighting (standard); 5. Night cover plate (standard),can change to transparent air curtain(Optional)			6. Single set with casters, combination without casters; 7. Double-layer hollow glass side panel; 8. Single side panel + 40mm; 9. Danfoss Expansive valve 10. Stainless steel plate Work top table									

** Standard width:1220mm / 1440mm / 1920mm / 2440mm / 2880mm,can be combined with each other

* Label might change depending on configuration

* Label might change depending on configuration

External Aesthetics

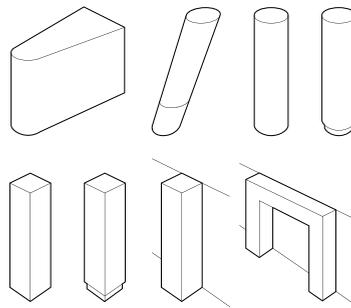

Front design, multiplexing kits & sidewalls

- **Front aesthetic:** wide range of possibilities when it comes to the design of the counters. Front aesthetic, endwalls and pedestals are available in many designs, material finishings and colours.
 - **Basement:** Closed basement models can have different front panel heights. Standard design has the thinnest front below the glass superstructure. Enhanced design features a higher front panel. Flat design aligns the full front in one pane with the superstructure.
 - **Cladding:** Whether painted metal sheet, total Inox design or wood cladding, any solutions can be chosen for your refrigerated counters.
- Multiplexing kits: for a harmonic connection of different cabinets.
Sidewalls: selectable depending on preferences: Flat, mirrored, thermopane, tempered for a line up of cabinets.

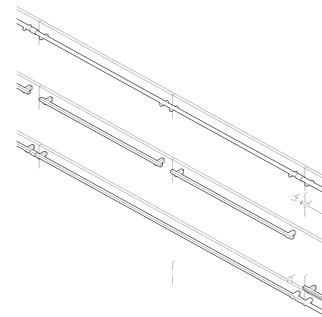

Pedestals

- Pedestals are not just a supporting element of the cabinet but a fundamental part of the aesthetics becoming an integral part of the counter's design.
- Therefore, a good design of the pedestal will enhance the overall look of the counter line.
- Available materials include painted metal sheet, stainless steel, or even a unique solution, such as a wood laminate cover.
- In addition, the size and shape of the pedestal can vary from rounded to rectangular, to adapt to every store's need.

Bumpers

- Bumpers serve a very technical need: they protect the appliance from damages potentially caused by shopping carts. However, they are also part of the front design.
- They can be square shaped or rounded, thin or thick. For stainless steel finishings, polished or brushed can be chosen.

Claddings

- Laminate claddings offer a wide range of possibilities from simulating wood to stone and concrete - as you will see on the following pages.
- recommend to use 18 mm waterproof MDF as inner material, with 0,8 mm or 1 mm lamination on both sides. This will ensure the right level of strength and durability, easy cleaning, and protection from humidity.
- An aesthetical and long-lasting alternative is the use of ceramic tiles, applied to a flat surface. With an individual and creative combination, you may mix and match tiles to come up with your own unique design.

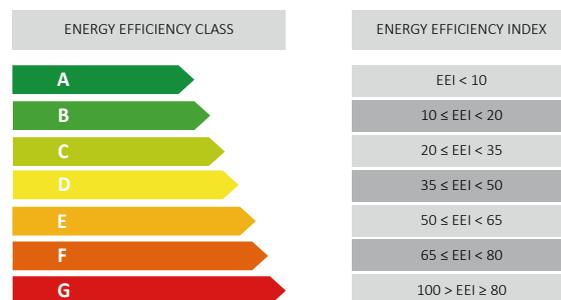

The EcoDesign regulation

The implementation of the EcoDesign directive for “refrigerated display cabinets with a direct sales function” was adopted by the European Union Commission in October 2019. The application date for the requirements is the 1st of March 2021. The directive applies to newly produced refrigerated cabinets only – the systems, racks and condensing units are covered by other regulations. The compliance is declared by the manufacturer with the declaration of conformity and with providing technical data to a European database called EPREL and the CE-mark. A verification procedure will be applied by the member states.

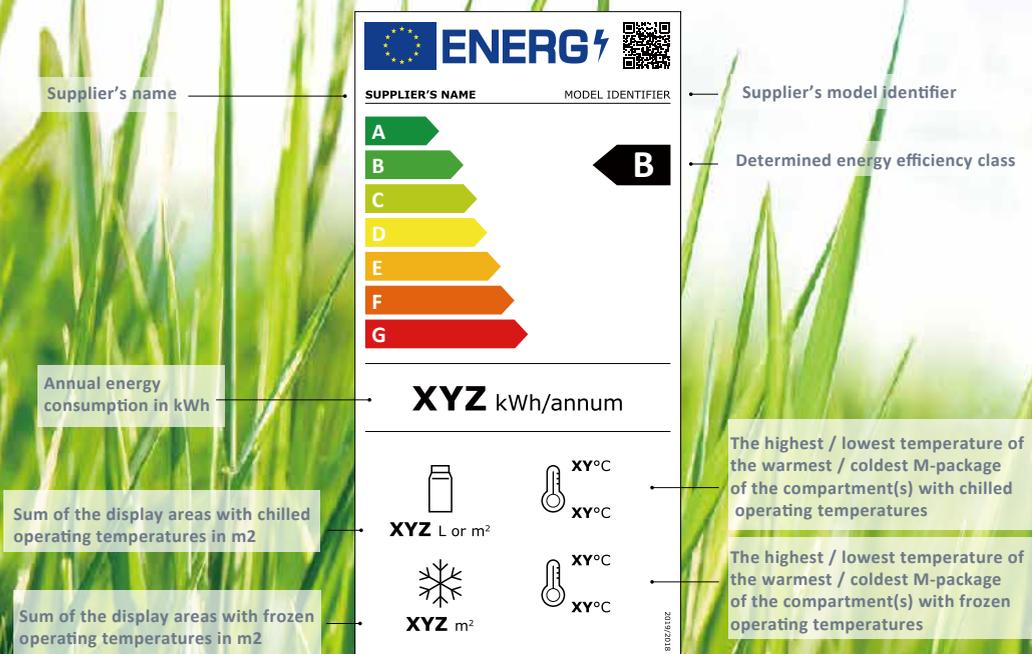

Energy Labelling

The objective of Energy Labelling is to give clear, easy-to-understand label information on the product energy efficiency, and classify products according to their level of efficiency (from G to A), with an overall effect of pulling the market towards more energy efficient products. Products marketed prior to March 2021 are not affected

The Label

Each new refrigerating appliance will be supplied with a printed label gathering energy related information:

Plug-in & remote cabinets in comparison

We can split the refrigerated display cabinets into two types. Remote cabinets have a common central condensing system which supplies several units with the refrigerant. The cabinets have a fixed location and are connected with pipes and wires to the central compressor rack and controller unit. Plug-in cabinets work like a household fridge and have the compressor, condenser and controller unit built into the cabinet itself; they only need a power supply. Both systems come with several advantages and trade-offs.

Plug-in system

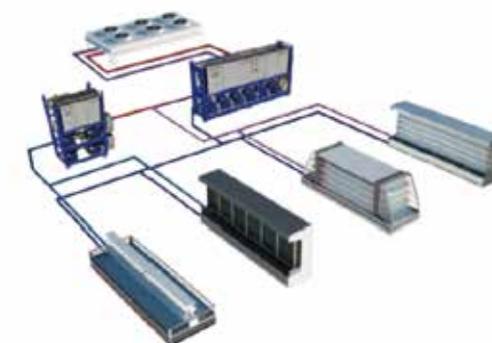

- Advantages:**
- No piping / installation needed
 - No machinery room
 - Very flexible layout changes
- Trade-offs:**
- Head rejection in store (bigger air condition needed)
 - Less space inside the cabinet
 - Regular cleaning of condenser
 - Higher energy consumption

Remote system

- Advantages:**
- Lower system energy consumption
 - Low-noise
 - Large usable volume for products
 - Wide range of multiplexing options
 - Open Cabinet de-humidify store climate
- Trade-offs:**
- Installation needed
 - Fixed installation, not flexible

Plug-in cabinet with characteristic machine compartment, which includes compressor, drip water evaporation and condenser.

Remote cabinets connected to the central rack with the gas cooler
